**Dear Parent/Guardian:**

We have found through the years that parental support is a vital factor to the success of our employees at Village Greens. Your aid in transportation, encouragement of promptness and commitment to work on holidays and weekends, helps your son/daughter better understand what is expected of them in accepting a position with our type of seasonal business. The young people are encouraged to go on vacation with their families and additional vacation time on their own is discouraged, unless enough prior notice is given.

Although it is your son/daughter applying for a job, we would appreciate your signature as confirmation that you agree to let them work for us.
